

Three Year Accessibility Plan for Frogmore Junior School 2015-2018

	Targets	Strategy	Outcome	When	Goal Achieved
Medium Term	Around school, routes to the main entrance to be clearly signed	Consider and cost out additional signage (can it be generated internally?)	Visitors can more easily find their way around school.	October 2015	October 2015
	To reduce the amount of clutter on the ground along the main routes around school, particularly in the children's cloakrooms	Tighten arrangements for cloakroom monitoring and introduce a reward system	Main routes around school are clutter-free and give a generally smarter impression of the school	September 2015	September 2015
	Steps out of Sycamore Class to be replaced by a safer exit route to the playground (ramp with handrail?)	Seek advice from Property Surveyor about best design. Get quotes and seek funding for work	Children in Sycamore Class can access playground directly from their classroom.	September 2017	March 2017
	Installation of automatic doors on main routes around school	Seek advice from Property Surveyor about best design. Get quotes and seek funding for work	Disabled children can move around school with as much ease as able-bodied.	July 2017	
Long Term	To remove/reduce trip hazards on paths leading to the playground where tree roots cause uneven surfaces.	Work with Property Services on cost-effective solutions, such as "weave" fencing to encourage children to slow down when negotiating hazardous paths	Trip hazards are minimised where possible and well controlled where they continue to exit	July 2018	
	To reduce flooding to parts of the external site	Regular drains maintenance	No more flooding of lower levelled areas.	July 2018	October 2015
	To improve car park lighting	Add improvements to car park lighting to the capital spend forward planning list	It no longer regularly comes up as an area of concern in the monthly H+S site inspections.	July 2018	
	To improve signage at the main entrance to the site, so that FJS is clearly signposted	Cost out additional signage	Visitors can find their way directly to our school, without going into the co-located Infant school first	July 2018
